Florida's Broward College Named One of Top Three Community Colleges in America by Aspen Institute

Broward College recognized as one of two Finalists-with-Distinction and awarded \$100,000 prize for achieving outstanding outcomes in: learning, degree completion, minority and low-income student success, and employment and earnings

Washington, DC, March 14, 2017 – The Aspen Institute announced today that **Broward College in Fort Lauderdale, Florida is a Finalist-with-Distinction of the [2017 Aspen Prize for Community College Excellence](#)**, the nation's preeminent recognition of high achievement and performance in America's community colleges and a benchmark for community college reform.

Awarded every two years since 2011, the \$1 million Aspen Prize recognizes institutions for their outstanding outcomes in four areas: student learning; certificate and degree completion; employment and earnings; and high levels of access and success for minority and low-income students.

Selected from more than 1,000 public community colleges nationwide, **2017 Aspen Prize winner Lake Area Technical Institute will receive \$600,000 in prize funds**. Two Florida colleges, **Broward College (Fort Lauderdale) and Indian River State College (Fort Pierce) were named Finalists-with-Distinction**. Aspen also recognized **two top ten finalists with the "Rising Star" award for rapid improvement in student completion: Odessa College (Odessa, TX) and San Jacinto College (Pasadena, TX)**. All four will receive \$100,000 prizes. (See full list of Top Ten Prize Finalists below and read more information about them at: <http://as.pn/1kr>.)

"Broward College excels at creating clear pathways for students to complete their associate's degrees and then transfer to a four-year college and get a bachelor's degree. Transfer students at Broward are about 50 percent more successful than at the average community college," said Joshua Wyner, Executive Director of the Aspen Institute College Excellence Program and author of *What Excellent Community Colleges Do*. "This success is even more amazing given its diverse student population. Broward College is busting a myth by proving that all students can succeed at high levels."

Broward College serves nearly 63,000 students from more than 180 countries with a strong culture of collaboration and commitment to continuous improvement. The college has ensured that students are on the right track to graduation and have what's needed to transfer to a four-year university by creating clear, career-oriented pathways and mandatory academic advising when students reach certain credit-accumulation milestones.

Broward College stands out as one of the nation's top community colleges for many reasons, including:

- Broward College's highly diverse student population – 66 percent of students are underrepresented minorities –attain bachelor's degrees at a rate 50 percent higher than the national average.
- The College has achieved virtually no gap in three-year graduation/transfer rates between all students (47 percent) and underrepresented minorities (46 percent), compared to the national average (34 percent) for minorities

The Prize winner and finalists were announced at an event at the Newseum in Washington, DC, by Aspen Prize Jury co-chairs Mitch Daniels, president of Purdue University and former Governor of Indiana, and former Representative George Miller (D-CA).

Community colleges today enroll more than 40 percent of all US undergraduates – 6 million students – working toward degrees and certificates. These include growing numbers of lower-income and minority students. While nationwide, under 40% of all community college students graduate, Aspen Prize finalist institutions demonstrate that community colleges can help students achieve higher levels of success while in college and in completing a degree that leads to well-paying jobs and careers after college.

The Aspen Prize is funded by the Joyce Foundation, The Kresge Foundation, the Siemens Foundation, and Pearson.

The Aspen College Excellence Program aims to advance higher education practices, policies, and leadership that significantly improve student outcomes. Through the Aspen Prize for Community College Excellence, the Siemens Technical Scholars Program, and other initiatives, the College Excellence Program works to improve colleges'

understanding and capacity to teach and graduate students, especially the growing population of low-income and minority students on American campuses. For more information, visit <http://highered.aspeninstitute.org/>.

The Aspen Institute is an educational and policy studies organization based in Washington, DC. Its mission is to foster leadership based on enduring values and to provide a nonpartisan venue for dealing with critical issues. The Institute is based in Washington, DC; Aspen, Colorado; and on the Wye River on Maryland's Eastern Shore. It also has offices in New York City and an international network of partners.
